I spoke with him yesterday. I also forwarded to him contact information for USFWS.

Subject: FW: Feedback on mine article

Hi Rob and Elizabeth:

Kelly Zito got a call from a citizen after he read the article in the Arizona Daily Star about the Rosemont Mine EIS and comments we submitted. He wanted to talk with someone about his concerns with water supplies in the area, and wanted to reach Rob. Can one of you call him? We should refer him to USFS if he wants to make public comments (if there is still an opportunity), but either way, please give him a call since he wanted to speak with someone from EPA.

Rusty

Subject: Feedback on mine article

Hi Rusty –

As I mentioned in the morning meeting, a citizen from Arizona named Jacob Sturby (sp?) called and expressed his opinion regarding water resources and a news article about a mine development project in his region (I'm assuming it's Rosemont; he didn't mention the project/company by name). He was trying to reach Rob Leidy to talk with him about it. Not sure if this is an official public comment that should be logged with the Forest Service, but I figured you, Rob or Margot could help point him in the right direction.

His number is: 52 [REDACTED] B6

Thanks-
Kelly
